Spotlighting Discussion of Delaware’s EITC

In a recent segment of Comcast Newsmakers, State Representative Paul Baumbach recently discussed reform to Delaware's state version of the Earned Income Tax Credit (EITC), which is calculated based on the federal credit and affects families within each of our local legislative districts. The EITC gets and keeps people working. The intent of this tax credit is to allow those who work full-time to support their families and stay out of poverty. In a series of local data snapshots KIDS COUNT in Delaware examined how the federal Earned Income Tax Credit (EITC) affects families across Delaware which can be found here.
